IN REPLY REFER TO:

W34-PRWI

March 13, 1968

Mr. R. L. Bannerman
Deputy Director for Support
Central Intelligence Agency
Washington, D. C. 20505

Dear Mr. Bannerman:

This is in reply to your recent letter concerning morning rush-hour traffic problems at the George Washington Memorial Parkway entrance to the CIA Headquarters building, Langley, Virginia.

It is my understanding that Chief Walter W. Lange, United States Park Police, and members of his staff have been in conference with you about this traffic problem. I concur with Chief Lange's recommendation that your request be granted with reference to the use of cones in the roadway and the placement of a simplified "Keep Left" sign.

Please be assured that Chief Lange and his staff have my complete support in matters pertaining to traffic safety and other types of police services.

Please call on me if I can be of service on other matters of mutual concern.

Sincerely yours,

Floyd B. Taylor
Floyd B. Taylor
